Gary...sorry to send this again, but I didn't finish all the information I was going to send. See additions to the previous.

If it's the same facility, Don, Tom and I inspected the it on 6/16/2010. I'm pretty sure it is.

Blue Dolphin Pipeline Co., Buccaneer Plant & Barge Loading Facility
2834 East Highway 332
Freeport, TX

Lat/Long: 28.9775 -95.31638

Alvin Childs was the QI

Very interesting operation as far as storage. A new one for Don and I. They produced crude from offshore/nearshore wells (6 at the time – previously 14) and store the crude in the pipeline until it's full. Then they pig the product to the storage tanks on land.

Anything else, let me know.

Mike
